

## Ball State University

### Dual Credits for Ball State's Major in Technology Teacher Education program

6 hours of PLTW credits may be used to cover program requirements in the Major in Technology Teacher Education.

To qualify students must:

- complete the Principles of Engineering
- course at a certified school,
- pass with no lower than a "B" grade
- score at least 70% on the end-of-course assessment

A second higher-level PLTW course, following the same program and assessment criteria, or completion of the International Baccalaureate sequence in Design & Technology with a score of 4.0, may be used to cover the directed elective requirement in the program.

PLTW courses that fulfill this second 3-hour requirement include

- Digital Electronics,
- Engineering Design & Development,
- Civil Engineering & Architecture,
- Aerospace Engineering, and
- Computer-Integrated Manufacturing.
